

Aquisition X-Rite - GretagMacbeth

What is going on with the take over from GretagMacbeth GmbH by X-Rite?

In 2006 GretagMacbeth was acquired by X-Rite. Since this time both companies have grown together, the product range has been settled and optimised. The On-Line Team located in Munich, Germany has not been influenced by this acquisition. As before, the color measurement systems will be developed and produced in Germany. The On-Line team in Munich will continue as before. Due to the workload we recruited new employees and we will expand next year.
